

FLOW SHIELD

AC DRAIN LINE CLEANER

SAFE FOR PIPES, PUMPS, AND SEPTIC SYSTEMS

BIO-ENZYMATIC
BUILD-UP REMOVER
AND MAINTAINER

8OZ (237ML)

FLOW SHIELD effectively removes the buildup and deposits that accumulate in your air conditioner's drain line. Our proprietary formula is made with live bacteria and enzyme accelerators that attach to organic buildup and removes it. The active ingredients coat the drain line and continue to protect the system from clogs for up to 3 months.

INSTRUCTIONS FOR USE:

1. If the drain line is **FULLY BLOCKED** (no water movement), you will first need to unclog the drain line. We recommend the **Leak Saver Leak Shot HVAC** drain blaster to clear out the drain.
2. Turn off the AC system.
3. Pour the entire 8-ounce bottle of Flow Shield into the drain line, condensate pan, or pump inlet.
4. Wait approximately 20 minutes before turning the system back on.
5. Repeat treatment every 3 months (4x a year).

CAUTION:

It is recommended that protective gloves and safety glasses be worn when using this product. Keep out of reach of children. Use with adequate ventilation. May be an eye irritant.

FIRST AID:

If ingested, seek immediate medical attention. If on skin, rinse with soap and water. If in eyes, flush immediately with large amounts of water and seek immediate medical attention.

STORAGE:

Store in a cool, dry area.

BACTERIA TYPE (100% Spores):

Bacillus Laevolacticus
Bacillus Amyloliquefaciens
Bacillus Licheniformis
Bacillus Pasteurii

BACTERIA COUNT:

200 Billion per Gallon

ENZYME ACTIVITY:

Alpha Amylase (starch degrading)
Lipase (fat degrading)
Protease (basic and neutral protein degrading)
Cellulase (paper degrading)
