

The HD Power Coil Cleaner is a powerful triple-action Detergent, Degreaser, and Deodorizer. It effectively removes heavy soils, emulsifies grease, and eliminates odors from air cooled evaporators, condensers, and permanent filters. Our HVACR professional's formula contains our proprietary Surfactant Technology Package to effectively restore air conditioning and refrigeration systems to their peak efficiency.

APPLICATIONS: Air-Cooled Evaporators and Condenser Coils, Microchannel Coils, Ductless Mini-Splits, Painted Fins, Permanent Filters, Fan Blades, and Other Greasy and Dirty Equipment.

FOR USE BY QUALIFIED PERSONNEL

DIRECTIONS:

1. Before starting, make sure to wear eye protection, gloves, and proper personal protective equipment (PPE). The system must be shut off and disconnected from power while cleaning.
2. Prepare the cleaning solution by mixing one (1) part HD Power with four (4) parts water and add to a hand pump sprayer. Add water to the sprayer first, and then HD Power. The concentration can be adjusted according to the job's requirements. **PRO TIP:** Simply add the HD Power directly to our Coil Cannon Automatic Mixing Sprayer and adjust the dial to your desired mixing ratio for fast and easy cleaning.
3. Pre-wet the coil with water.
4. Spray the cleaning solution onto the coil from the bottom to the top. Let the HD Power work on the coil for 5-10 minutes.
5. Rinse the coil thoroughly with water and make sure that all the coil cleaner has been removed. Repeat the cleaning process if necessary.
6. When finished, thoroughly rinse out the hand sprayer or Coil Cannon and restore the system to function.

EVAPORATORS: HD Power can be used as a "No-Rinse" evaporator cleaner by mixing one (1) part HD Power with ten (10) parts water and applying it directly onto the coil with a pump sprayer. When you turn on the system, the condensate will automatically rinse off the coil cleaner. Please only use this where there is enough humidity in the air to cause condensation on the evaporator.

PERMANENT FILTERS: For cleaning greasy filters or components in a tub, add one ounce of HD Power for every gallon of water. Allow the parts to soak for 15 minutes and then rinse thoroughly with water.

EFFECT ON ROOFING MATERIALS: Depending on the condition and material composition, the color and finish of roofing materials can be affected by coil cleaners. It is recommended to test this product on a small inconspicuous area of the roof before cleaning.

HD POWER

Evaporator and Condenser Coil Cleaner

CONCENTRATE
4:1 to 10:1
DILUTION RATIO

- Heavy Duty Detergent, Degreaser, and Deodorizer
- Proprietary Surfactant Technology Enhances Cleaning
- Safe for all Metals, Rubber, and Roofing Materials

1 Quart (946.3ml)
HARMFUL IF SWALLOWED

DANGER. CAUSES SEVERE SKIN BURNS AND SERIOUS EYE DAMAGE

DILUTION CHART

| | |
|----------------------------|----------------------------------|
| Outdoor Coil - Light Soil | 1 part HD Power : 8 parts water |
| Outdoor Coil - Medium Soil | 1 part HD Power : 6 parts water |
| Outdoor Coil - Heavy Soil | 1 part HD Power : 4 parts water |
| Indoor Coil - "No Rinse" | 1 part HD Power : 10 parts water |

PRECAUTIONARY STATEMENTS: Do not breathe dust, fumes, gas, mist, vapors, or spray. Wash hands and other exposed areas thoroughly after handling. Wear protective gloves, protective clothing, eye protection, and face protection. Do NOT induce vomiting. Wash contaminated clothing before reuse. Store locked up. Dispose of contents/container to the specifications of local, regional, national, and international regulations.

FIRST AID: GENERAL ADVICE: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible). **IF SWALLOWED:** Rinse mouth. **IF INHALED:** First, take proper precautions to ensure your own safety before attempting rescue (e.g. wear appropriate respiratory protective equipment, use the buddy system), then remove the exposed person to fresh air. Keep at rest in a position comfortable for breathing. Get medical advice/attention. **IN CASE OF SKIN CONTACT:** Immediately drench affected area with water for at least 15 minutes. Obtain medical attention if irritation develops or persists. Immediately take off all contaminated clothing. **IN CASE OF EYE CONTACT:** Immediately rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Obtain medical attention if irritation develops or persists.

CONTAINS (CAS#): Butoxyethanol (111-76-2), Sodium metasilicate pentahydrate (6834-92-0), Potassium hydroxide (1310-58-3), Sodium xlyenesulfonate (1300-72-7), benzenesulfonic acid, mono-C10-16-alkyl derivs, Sodium salts (68081-81-2)

HMS RATING: Health - 2, Flammability - 0, Physical Hazard-1, Personal Protection- B
