## Refrigerant Grade CO2 Cartridge Installation Instructions

STEP 1: Unscrew cap of Leak Shot Injector Gun

STEP 2: Carefully line up the male thread of the CO2 cartridge with the female thread of gun cap.

STEP 3: **QUICKLY** and **FIRMLY** screw the cartridge **ALL THE WAY IN** so that it is fully punctured and sealed against the cap. NOTE: You will hear a slight gas release when the pin punctures the cartridge.

STEP 4: Firmly screw the Leak Shot cap and base together.

STEP 5: Now the Leak Shot is ready to use. Depressing the trigger will dispense CO2.

NOTE: When not in use, lift the trigger lock to prevent accidental CO2 discharge.

**WARNING:** Refill **ONLY** with Leak Shot Refrigerant Grade CO2 Refill Cartridges. Other brand cartridges may not function with the Leak Shot and may contaminate your system.
